

## EZDraw 340

## Wire Drawing Lubricant

### Description

EZDraw 320 is a free-flowing borax free lubricant formulated with specialized fatty acids reacted with soluble alkalis. It is a versatile, high-performance lubricant, suitable for a variety of applications using high-speed equipment and where the presence of borax maybe a deterrent. EZDraw 320 is manufactured under controlled conditions to assure chemical consistency and moisture content.

### Applications

EZDraw 320 is a versatile, multi-purpose lubricant that may be utilized in many applications:

- Low carbon and high carbon steel
- Mechanically descaled or acid cleaned bare and coated wire
- Borax, Phosphate, Lime or Formulated pre-coats
- Stainless steel wire

### Operating Parameters

- Up to 13 holes
- A wide variety of rod breakdown and finished wire sizes
- Speeds compatible with the newest machine capabilities and technologies

### Properties

Properties	
Appearance	Off-white free-flowing, powder
Solubility	Completely water soluble
% Moisture	1.0 - 2.0 (typical)
Assay	Soluble stearates, nitrites, other additives
Softening Point °C	>240

### Packaging

EZDraw 320 is available in 280 lbs fiber drums or 1400 lbs supersacks.
