

## EZDraw 39

## Wire Drawing Lubricant

### Description

EZDraw 39 is a free-flowing; calcium-based dry powder rolling lubricant. It contains specialized additives that provide superior lubrication for extended roll life with minimal usage, leaving the wire very clean. The EZDraw 39 is manufactured under controlled conditions that ensure chemical uniformity and low moisture content.

### Applications

EZDraw 39 can be used in a variety of applications, some of which include:

- Mechanically descaled carbon rod breakdown
- Mechanically descaled low carbon wire for fence and welded mesh
- Rolling of low and medium carbon wire

### Operating Parameters

- Up to 10 holes
- A wide variety of rod breakdown and finished wire sizes
- Speeds compatible with the newest machine capabilities and technologies
- Low carbon to medium carbon wire

### Properties

Properties	
Appearance	Gray free-flowing, powder
Solubility	Water insoluble
% Moisture	1.0 - 2.0 (typical)
Assay	Insoluble stearates, sulfur, and other additives
Softening Point °C	>120

### Packaging

EZDraw 39 is available in 300 lbs fiber drums, 450 lbs drumsack, or 1500 lbs supersacks.
