

## EZDraw CP40

## Semi-Synthetic Copper Drawing Lubricant

### Description

EZDraw CP40 is a highly concentrated semi-synthetic copper rod and wire drawing lubricant containing new specialty lubricity additives, emulsifiers, corrosion inhibitors, and biocide. It is designed to offer optimum performance in most drawing applications, most types of water and is specifically formulated to keep your system clean and running for an extended amount of time. EZDraw CP40 is formulated to be very pH stable.

### Applications

EZDraw CP40 is formulated to be a superior drawing lubricant in your water.

- Single wire
- Multi-wire
- Copper wire
- Copper alloy wire
- Copper plated wire

### Operating Parameters

- Enhanced lubrication
- Efficient lubricant consumption
- Minimal foaming
- Resistant to microbial degradation
- Clean running
- High metals contamination tolerance

### Properties

Properties	
Rod Drawing	6 - 10%
Intermediate (Single or Multiwire)	5 - 8%
Fine	3 - 6%
Ultra-Fine	1 - 3%
pH range	8.0 to 10.0
Temperature	150° F Maximum

### Packaging

EZDraw CP40 is available in 55 gallon drums, 275 gallon totes and tank trucks.
