

EZFeed V33

Vanishing Oil

Description

EZFeed V33 special blend of low viscosity oils that is formulated for use on mild deforming operations leaving a very light lubricant film. EZFeed V33 is nonreactive to all metals and will evaporate leaving a very clean wire surface.

Applications

- Stranding lube for ferrous and non-ferrous wire
- Roll forming light gauge steel
- Light metal stamping
- Final pass lube in dry drawing to reduce soap powder residual
- Pay-off aid for tightly spooled wire

Operating Parameters

EZFeed V33 is used in its "as received" form either by flooding, submersing, wiping or spraying.

Properties

- Low viscosity
- Non-staining
- No sulfur or chlorine
- Complete evaporation

Packaging

EZFeed V33 is available in 55 gallon drums and 275 gallon totes.
